Good things start at *the roots.*

INDIAN COCOPEAT & COIR

01

PRODUCT
CATALOGUE

Natural fibre.
A world of growing possibilities.

Rooted in India.
Made for growing.

A PARTNER FOR YOUR COIR REQUIREMENTS

Mahan Global supplies Indian cocopeat and coir products for international buyers. From compressed blocks to propagation formats, our range brings natural coconut fibre into a variety of growing systems.

We coordinate sourcing, quality checks, packaging and export shipments around the buyer's requirements. Share your product, quantity and destination so we can plan the specification and supply arrangement with you.

01

Choose a format

Select the product and size that suit your growing or retail programme.

02

Define the grade

Agree the media specification, treatment and packing requirements.

03

Plan the shipment

Confirm the quantity, destination and delivery requirements.

Form follows *nature.*

Explore the formats.
Find your next growing medium.

More growing potential.
One compact form.

5 kg

Cocopeat block

A compressed cocopeat format for bulk growing-media requirements. The 5 kg block is the largest standard block weight in this collection.

Nominal weight	**5 kg**
Form	**Block**
Material	**Cocopeat**
Grade	**On request**

FOR BULK MEDIA PREPARATION

Share the crop, growing system and quantity so the cocopeat grade and packing can be matched to your programme.

ASK ABOUT 5 KG BLOCKS

exports@mahanglobal.in

A balanced format.
Naturally versatile.

2 kg

Cocopeat block

A mid-size compressed block in the Mahan range. Choose the 2 kg format when your programme calls for a smaller unit than the 5 kg block.

Nominal weight	**2 kg**
Form	**Block**
Material	**Cocopeat**
Grade	**On request**

FOR A MID-SIZE UNIT

Specify washed or unwashed media, the required EC grade and your labelling preferences when requesting a quotation.

ASK ABOUT 2 KG BLOCKS

exports@mahanglobal.in

Small format.
Growing possibilities.

1 kg

Cocopeat block

A smaller compressed cocopeat block for programmes that need a 1 kg unit. Product dimensions and the final packing arrangement are agreed with the order.

Nominal weight	**1 kg**
Form	**Block**
Material	**Cocopeat**
Grade	**On request**

FOR SMALLER PACK PROGRAMMES

Discuss retail presentation, carton requirements or bulk loading with the Mahan team to match the way you plan to supply the product.

ASK ABOUT 1 KG BLOCKS

exports@mahanglobal.in

Compact by nature.
Simple to specify.

650 g

Cocopeat brick

A compact 650 g brick in the cocopeat collection. Choose this format when your programme calls for a smaller compressed unit.

Nominal weight	**650 g**
Form	**Brick**
Material	**Cocopeat**
Grade	**On request**

FOR A COMPACT BRICK FORMAT

Confirm your target growing application, media requirements and packaging artwork when planning a branded or private-label programme.

ASK ABOUT 650 G BRICKS

A considered start.
A compact format.

Coco net pellets

Compressed cocopeat pellets with a mesh wrap. Available in five diameter options for propagation requirements.

FORMAT DETAILS

Material	**Cocopeat**
Form	**Mesh wrapped**
Size measure	**Diameter**

ILLUSTRATIVE PRODUCT VISUAL

DIAMETER	FORMAT
20 mm	Mesh-wrapped pellet
30 mm	Mesh-wrapped pellet
35 mm	Mesh-wrapped pellet
40 mm	Mesh-wrapped pellet
50 mm	Mesh-wrapped pellet

Choose a diameter, then confirm the tray fit, media grade, pack quantity and sample requirement.

A considered start.
A compact format.

Coco naked pellets

Compressed cocopeat pellets in an unwrapped format. Available in five diameter options for propagation requirements.

FORMAT DETAILS

Material	**Cocopeat**
Form	**Unwrapped**
Size measure	**Diameter**

DIAMETER	FORMAT
20 mm	Unwrapped pellet
30 mm	Unwrapped pellet
35 mm	Unwrapped pellet
40 mm	Unwrapped pellet
50 mm	Unwrapped pellet

Choose a diameter, then confirm the tray fit, media grade, pack quantity and sample requirement.

Round by design.
Sized for your pots.

Coco discs

Circular compressed cocopeat formats in five diameters. Specify the disc size to suit your intended container or nursery programme.

DIAMETER	FORM
60 mm	Coco disc
80 mm	Coco disc
100 mm	Coco disc
120 mm	Coco disc
150 mm	Coco disc

PRODUCT DETAILS

Material: cocopeat
Form: compressed circular disc
Packing: confirm carton quantity
Media grade: on request

Confirm the container fit and final product specification with a sample before placing a bulk order.

Open to growth.
Made for your setup.

Open-top coir grow bags

An open-top growing format available in three nominal capacities. Share the crop, growing system and bag requirements so the specification can be aligned with your programme.

CAPACITY	FORMAT
5 L	Open-top bag
10 L	Open-top bag
20 L	Open-top bag

SPECIFY WITH YOUR ENQUIRY

Capacity / media grade / bag and drainage requirements / quantity / packing and labelling

A finer texture.
A natural finish.

ILLUSTRATIVE PRODUCT VISUAL

Fine / shredded loose coir

Loose coir in a fine, shredded form. Select the pack volume and tell us about your intended mulching or horticultural application.

PACK VOLUME	FORM
5 L	Loose coir
10 L	Loose coir

PACKED AROUND YOUR REQUIREMENTS

Confirm the material texture, pack volume, moisture requirement and labelling with your quotation.

The right medium.
The right specification.

Start with the growing requirement, then agree the cocopeat grade. The following options describe Mahan's general cocopeat offering; they are confirmed for the selected product and order.

01	Washed or unwashed	Both treatments are available, depending on the crop requirement and the agreed specification.
02	EC grade	General cocopeat options include below 0.5 mS/cm, below 1.0 mS/cm and buyer-specified levels. Agree the test method and target with the quotation.
03	Typical pH	Mahan's general cocopeat range is stated as pH 5.5-6.8. Confirm the agreed range for your chosen product and crop.
04	Custom specification	Dimensions, moisture, fibre content and packaging can be discussed against buyer requirements.

Quality checks cover EC, pH, moisture, compression and foreign particles. Ask for the product specification and sample evaluation details with your enquiry.

Your product.
Your presentation.

Choose the product format first, then shape the packing and shipment around your market.

01

Product packing

Discuss shrink-wrapped blocks, carton or bag quantities and protection during handling.

02

Your brand

Custom labels and private-label packaging can be arranged around the agreed artwork.

03

Export loading

Palletised shipments and bulk container loading are available. Confirm the loading plan with the order.

04

Mixed formats

Mixed-product containers can be arranged, subject to quantities and logistics planning.

BEFORE BULK SUPPLY

Samples are available for evaluation. Confirm the final specification, pack details, artwork, quantity and shipment arrangements before the order is finalised.

From product choice *to your next shipment.*

Send the details below for a focused product discussion and quotation.
